

**ChEE 201**  
**Writing Assignment #1**

Now that you've learned where chemical engineering graduates go, describe what kind of job you would like to have (besides high paying). Talk about how your personality traits fit into your career choice. Talk about the skills you will need to develop in order to do your job well. What type of plan would help you get the job you want.

Your finished report should be approximately one page long.

Format:

Typed

Double spaced

12 point font

1 inch margins

Grading:

Grading will be based on spelling, grammar, punctuation, meeting the formatting requirements, and the quality of ideas presented.
