**Learning Journal Exercise #4:**

Many philosophers have claimed that verbalizing things has the ability to make them come true. To this end, list 25 goals that you would like to accomplish during your life. These goals may be personal or professional.

I made a list like of goals like this about ten years ago and I have already completed five of them! I periodically review the list (about once a year) and see which ones I've done and which ones I have yet to accomplish.
