

ENGR 196B
Survival and Success Skills for Freshmen Engineers
Spring
University of Arizona

Search and Research

Research you do as an undergraduate can be invaluable to you later on. Find three researchers at the University of Arizona who do research that is interesting to you. Contact them to find out if they have a suitable position for an engineer with your experience if you are interested in doing research. If you are currently not interested in doing research, explain why and what you can do to make research a more attractive option at some future time.
