

SAE Formula and Baja Scholarship Application
University of Arizona

Due March 7, 2014

The *Kanto* and *Mayshar* scholarship funds have been established with the following intentions:

- To reward current team members for their outstanding contributions to the project,
- To give SAE Formula and Baja alumni an opportunity to contribute back to the program that gave them so much, and
- To give the community a venue to express its support of such student activities.

A successful program requires those who put their heart and soul into the project and this scholarship is focused on those people.

Good academic performance in school is encouraged but a high GPA is not a requirement for these awards. However, low grades should be addressed in the application (we expect you to graduate). Financial need is not an overwhelming consideration, but it will not be overlooked. Please treat this application as you would any professional business matter—you will be judged accordingly. Please remember that one of the Award Committee members is an alumnus who has been in your situation.

Eligibility and Requirements:

- Currently enrolled at the University of Arizona
- A student member of SAE
- An active member of one of the SAE competition teams for at least one full semester

Date: _____

First name: _____ Last name: _____

E-mail address: _____ Phone number: _____

Major: _____

Anticipated Year/Month of graduation: _____ / _____

How many semesters have you been on the team? _____

Formula: _____ Baja: _____

What year did you become a member of SAE? _____

SAE membership ID: _____

Please answer to the questions on the next page. Keep your responses to two pages (single spaced) and do not limit answers to the actual construction of the car. Fundraising, school tours, recruiting new members, or other such team related activities are equally important. (Please enter your response following each question.)

1. Why did you join the Formula or Baja team?
2. Which part of your activities have you enjoyed the most?
3. Which part of your activities has been the most challenging?
4. Describe a project you have worked on for the team where you did a majority of the work.
5. How do you see yourself involved in the project in the future?
6. Which skills, learned through the project, do you view to be most important in your future?
7. Provide any other important information you would like to share with the Award Committee.

To Apply:

- Complete the application form, answer all the questions, and submit the form electronically to
Professor P. Nikraves (SAE Faculty Advisor)
pen@email.arizona.edu
- Ask a fellow team member for a letter of support to be sent electronically to the SAE Faculty Advisor by the due date
